DETAILED ACTION

1. This action is in response to the Request for Continued Examination filed 9/17/2007.

Information Disclosure Statement

2. It is noted to applicant that the second NPL reference listed on the Information Disclosure Statement entitled "GLOBALLY CONVERGENT METHODS FOR NONLINEAR SYSTEMS OF EQUATIONS" has not been considered. This reference was not provided with this Information Disclosure Statement (IDS). The Examiner notes that a reference entitled "Numerical Recipes in C, The Art of Scientific Computing" which includes a section with the same title as the above identified reference of the current IDS was provided in an IDS on 4/19/2004. However, applicant notated on the IDS of 4/19/2004 that pages 383-393 had been submitted, while applicant is current stating that pages 383-388 and 420-421 are to be considered. Therefore, the reference of the current IDS has not been considered as pages 420-421 do not appear to have been submitted.

3. Furthermore, U.S. Pat 5,633,711 and FR 763861 have not been considered. U.S. Pat 5,633,711 is directed towards measurement of material properties with optically induced phonons, and FR 763861 is directed towards improvement for alcohol dehydration
